

Area Dominoes Game

What you'll need:

- Dominoes
- Paper
- A pencil

Directions:

1. Put all the dominoes in a bag or container.
2. Student A will draw a domino from the bag. The two numbers on the domino are the length and width of a rectangle in centimeters.
3. All students will draw a rectangle or square to represent the dimensions indicated by the domino. The other students playing with Student A will check Student A's work to ensure they are correct.
4. If Student A is correct, they may have 1 point. Play continues until all the dominoes have been drawn from the bag.
